PROFESSIONAL SUMMARY

Computer Science undergraduate at KIIT with practical exposure to AI/ML, Cybersecurity, Image Processing, and NLP through a dedicated summer internship. Working on a phishing detection/protection project and active in technical hackathons and AI/ML learning initiatives. Seeking entry-level opportunities in Software Engineering, Cybersecurity, or AI/ML.

TECHNICAL SKILLS

Tools & Platforms: Git, GitHub, VS Code, Figma

Mobile / App Development: Flutter, Dart

Other: API Integration, Formspre

Areas of Focus: AI/ML, Cybersecurity, Natural Language Processing (NLP), Large Language Models (LLMs), Agentic AI, Image Processing, Phishing Detection

EXPERIENCE

Summer Intern — KIIT School of Computer Applications, KIIT Deemed to be University

May 2026 – July 2026

- Completed an 8-week technical internship with practical exposure to AI/ML, Cybersecurity, Image Processing, and Natural Language Processing (NLP).

PROJECTS

Phishing Detection & Protection Project (SentinelPhish / PhishGuard)

- Conceived and developed a cybersecurity project focused on phishing detection and user protection against phishing threats.
- Documented the project concept and approach through a formal invention disclosure.

EDUCATION

KIIT (Kalinga Institute of Industrial Technology), Bhubaneswar, India

Undergraduate, Computer Science / Technology

ACHIEVEMENTS & HACKATHONS

- Automatrix 2.0 (Agentic AI) — Certificate of Participation, UiPath Student Developer Community, Amritsar (August 2025)
- HACKVERSE 2026 — Participation, H & P Projects (July 2026)
- UNESCO Hackathon 2026 — Participation (2026)

CERTIFICATIONS

- Low-Resource NLP: Techniques and Application with LLMs — KIIT School of Computer Applications (July 2026)
- AI/ML, Cybersecurity, Image Processing & NLP — KIIT School of Computer Applications (associated with internship above)

ACTIVITIES

- IMUN Online Conference 333 — Delegate, International Model United Nations Association (August 2026)
